■ HISTORICAL NAMESAKE DEDICATION

An aerial night rendering of a sustainable urban development. The scene features a large, modern stadium with a curved roof and glass facade in the upper left. In the center, a large, multi-story residential or commercial building with a grid-like facade and many lit windows is prominent. To its right, a smaller, more traditional brick building with a flat roof and green roof sections is visible. The area is surrounded by streets with cars, trees, and a central park area with a red heart sculpture and colorful flags. The overall atmosphere is illuminated by streetlights and building lights, creating a vibrant urban scene.
